About

I'm a self-taught React developer with a bachelor's degree in Mathematics. I have always found coding intuitive and having pushed myself to learn the most effective ways to achieve results. I am a fast learner and can quickly integrate into a team so I can provide value to the company and the customers.

Experience

Freelance Webdesigner

I have a great freelance web developer experience. I'm also learning new stuff through all my freelance works

Freelance Graphic Designer

I done a lot graphic design freelance work. flyer magazine banner and logo and also done commercial videos etc.

Projects

amazon clone

amazon clone completely build using next js tailwind and the firebase as database and fake store API to fetch images and stripe for payment gateway.

Airbnb clone

This is next js Airbnb clone with Mapbox map integration. only have the front end part and the design completely using Tailwind CSS and also hosted in vercel.

invomak

invomak is an invoice generation web application users can make invoices and track invoices. build using the react and tailwindcss and also react pdf library.
